

Workshop on Machine Learning on 06 to 08 Nov. 23

The Machine Learning Workshop, conducted by Department of Computer Science and Engineering, NIIST Bhopal in collaboration with the Coding Thinker Pvt. Ltd. Bhopal, was a comprehensive three-day program designed to introduce students and faculty to the latest developments in the field of machine learning. The workshop aimed to provide participants with practical knowledge and hands-on experience in machine learning techniques and applications.

Workshop Objectives

- To familiarize participants with the fundamental concepts of machine learning.
- To provide hands-on experience with machine learning tools and libraries.
- To explore real-world applications of machine learning.
- To foster collaboration and knowledge exchange between students and industry experts.

Workshop Highlights

Day 1: Introduction to Machine Learning

The first day of the workshop started with an overview of machine learning concepts, algorithms, and its importance in today's technology landscape. Practical sessions included setting up development environments and implementing basic machine learning models using Python and popular libraries like scikit-learn. Participants gained insights about supervised and unsupervised learning techniques.

Day 2: Advanced Topics

The second day focused on advanced machine learning topics such as deep learning, neural networks, and natural language processing. Hands-on workshops introduced participants to deep learning frameworks like TensorFlow and PyTorch. During the session case studies of real-world applications, including image recognition and sentiment analysis, were discussed.

Day 3: Application and Projects

The final day revolved around applying machine learning in real-world scenarios. Participants were divided into groups to work on machine learning projects and present their findings. Representatives from Coding Thinker, Pvt. Ltd. provided guidance and mentorship. Participants expressed their satisfaction with the workshop, highlighting the practical nature of the sessions and the opportunity to work on real projects. They also appreciated the expertise and guidance provided by the instructors from Coding Thinker, Pvt. Ltd.

The Machine Learning Workshop conducted by Department of Computer Science and Engineering in collaboration with the Coding Thinker, Pvt. Ltd. was a resounding success. It equipped students and faculty with essential skills and knowledge in the field of machine learning. The workshop encouraged interaction between academia and industry, fostering a spirit of innovation and collaboration.
