### **“VITAMIN C & D”**

The Guest Lecture on “VITAMIN C & D” was organized by VISMT on 16<sup>th</sup> February 2019 presented by Dr. Swagata Brahmachari. The purpose of this Seminar was to enlighten the students to the field of “Vitamin D and C” as levels have inverse relation with the metabolic syndrome components and they are used as antioxidant supplements during enduring metabolic activities. In the present study, we hypothesized that the intake of vitamin D and/or C with endurance physical activity might reduce the risk of metabolic syndrome. All the faculties and students attended this lecture.

## EBOLAVIRUS

Awareness program on Ebola as Ebola is a rare but deadly virus that causes fever, body aches, and diarrhea, and sometimes bleeding inside and outside the body, as the virus spreads through the body, it damages the immune system and organs. Ultimately, it causes levels of blood-clotting cells to drop. This leads to severe, uncontrollable bleeding. The disease was known as Ebola hemorrhagic fever but is now referred to as Ebola virus. It kills up to 90% of people who are infected. An awareness program held on EBOLA organized by VISMT on 19th January 2019 by Dr Jyoti Nirapure. She gave an outstanding lecture on this virus spread all over the world and prevention for the same.

## **“TRAFFIC AWARENESS”**

The Awareness on “Traffic Awareness” was organized by VISMT on 11<sup>th</sup> August 2018. The purpose of this Workshop was to enlighten the students to the field of “Traffic Awareness”. During the program, In an effort to create awareness about road safety, Department of Traffic Police in collaboration with VISMT conducted a program on Road safety. A detailed power point presentation to acquaint everyone with traffic rules. Their aim was to create consciousness among students and to sensitize them to important road etiquettes like the importance of first aid, safety-helmet, seat-belt, safe passage to hospital referrals and fire tenders on priority. A short movie was also shown to the students on how to reduce road accidents.

The Principal of VISMT Dr. Sunita Sharma also addressed the audience, and urged it to comply with traffic rules, and drive at an appropriate age with a proper legal license. The audience appreciated the efforts of Traffic Police Department for organizing the seminar

### **Prevention of Swine flu**

Swine Influenza (swine flu) is a respiratory disease of pigs caused by type an influenza virus that regularly causes outbreaks of influenza in pigs. Swine flu viruses do not usually infect humans, but rare human infections have occurred. (For more information about swine influenza infections in humans, see Variant Influenza Viruses in Humans). Swine flu viruses can cause high levels of illness in pig herds, but cause few deaths in pigs. Swine influenza viruses can circulate among swine throughout the year, but most outbreaks occur during the late fall and winter months similar to outbreaks in humans. Our student visited various nearby villages for Awareness Program on prevention of Swine flu was organized by VISMT on 8<sup>th</sup> December 2017 by Department of Paramedical.

## NATIONAL YOUTH DAY

**NATIONAL YOUTH DAY** was organized by VISMT on 12<sup>th</sup> January 20 17. **National Youth Day** is celebrated on 12 January being the birthday of Swami Vivekananda. In 1984 the Government of India declared this day as National Youth Day and since from 1985 the event is celebrated in India every year. The Government of India quoted that ' the philosophy of Swamiji and the ideals for which he lived and worked could be a great source of inspiration for the Indian Youth Day. VISMT take initiative every year to celebrate National Youth Day for the empowerment of the youths.
