

**SEMINAR ON
“Entrepreneurship: The Gender
Centre for Empowering Development”**

NRI Group of institution, Bhopal

NRI group of institutions is leading group of educational institutions of India which is providing professional degrees in engineering, pharmacy, management, law and paramedical sciences since 17 years. The institute caters over 5000+ students, studying across 100 acres of high-tech campus. The institute nurtures students coming from all walks of the society to experience quality and equal education. Our institute believes in providing the best of Indian Education system with a blend of educational techniques of the USA.

NRI group of institutions is about 11 Km from Bhopal railway station and is about 21 Km from international air port. Department offers 4 year B.E. programme in Mechanical Engineering with an intake of 120 students and 2 year M.Tech. Programme with an intake of 36 students. It has well qualified, committed and motivated faculty members having specialization in various streams. The core competency of the Department is in the area of machine design and robotics and thermal engineering.

Course Objective

Entrepreneurship is a key driver of economic growth and job creation. In addition, self-employment is a response to non-availability of existing jobs. Through focus on entrepreneurship, youth and women develop skills required to establish an enterprise and become capable business people. The Gender Centre for Empowering Development GenCED held its maiden entrepreneurial seminar for students.

The seminar was held on **11th Feb, 2015** by **Department of Mechanical Engineering (ME)**. The venue for the seminar was NRI Institute of Information Science & Technology. The entrepreneurship seminar dubbed ‘Attitude to our Business’ is just one of GenCED’s numerous program geared towards upgrading the economic standard of women in deprived areas.

Under this Entrepreneurships development seminar, GenCED Sought to develop the economically marginalized women through the provision of financial advisory services, education and entrepreneurial development initiatives. The program sought to provide a comprehensive and adoptable approach to human resources development and to empower youth and women for employment or self-employment.

The seminar basically aimed at giving an intensive economic and financial education to the students community. It attracted about 250 participants **Dr. S.P. Singh HOD IPER** was the **guest speaker** for the program while GenCED’s **Director of Program Dr. Deepak Thakur HOD Basic science**. The presentation described how an entrepreneurial approach is

necessary to develop employability skills for small and medium enterprise.

Speaking on the theme “**Attitude to our Business**”, the guest speaker for the seminar, Dr. S.P. Singh HOD IPER spoke on how people can take advantage of situations in their communities and make good business out of them. He educated participants on the need to start their own small businesses, and also make their products and services the preferable ones as the economic market has become more competitive in recent times.

Participants were also educated on the importance of savings and reinvesting in their various trades. They were advised not to indulge in impulse buying but rather attach much seriousness to their trade or profession they are engaged in.

The workshop was interactive as participants made meaningful contributions to the discussion. The speaker also answered a number of questions from various people who were already involved in trade, apprenticeship and even those who were considering starting their own businesses. In all, the two hour comprehensive, interactive and educative entrepreneurship seminar ended with much enthusiasm in the participants as they were intensively educated on developing their entrepreneurial skills, finding their capabilities and making good use of their income and finances.

Report on Entrepreneurship webinar

Date: 11th Feb, 2015

- Inauguration Ceremony

Classes Attended & Number of beneficiaries: 80 students from Department

Objective: Identification of opportunities in entrepreneurship.

Name and details of the resource person: Mr. Kashyap Karnala is the founder of invement.com, which specializes in incubating startups. He provides investment and mentoring to startups. He is also the founder of eyeepus.com, which is in the field of manufacturing pillboxes to elderly. He is also the author of an upcoming book called "The tech dummy entrepreneur" targeted for wannapreneures and early stage startups. Previously he lived and worked in Germany and France for over 5.5 years. He is an MBA graduate from Germany and also he completed his programme in IIM Bangalore as part of student exchange programme.

Brief of the program

Mr. Kashyap took over the session on the topic Identification of Opportunities & discussed the importance of communication, conformation, from where money can be raised, noticing things around us, being energetic and much more. He also shared his personal opinion that doesn't ask for permission to start what you like, do what you love to do the most. The entire session was filled with a lot of activities and interactive sessions between the speaker and students. Mr. Kashyap concluded the session by highlighting the perks of being an entrepreneur. He shared his views like you can be your own boss, high satisfaction towards what you do, financial independence, allow you for experimenting and also there is high level of possibilities for growth.

Course Objective

NRI Institute of Science and Technology Department of **Civil Engineering** has organized a workshop on Research Methodology on **29 Jan 2019**. The program was inaugurated by **Dr Prashant Baredar , MANIT, Bhopal Madhya Pradesh**. 80 students participated on it.

The topic was based on :The challenge for the development of **innovative engineering systems required for civil infrastructure** and Its construction is now more complex because of the new demands for a sustainable future. Sustainability Has been defined as an alternative to create new technologies and engineering systems that will satisfy the Needs of humanity in this generation without placing at risk the ability to satisfy the needs of future Generations. The challenge of incorporating sustainability as criteria for the planning, design, construction And operation of civil infrastructure needs to be preceded by sound and rigorous research methodologies That reinforce our confidence in their application in the evaluation of such projects.

REPORT ON ONE DAY SEMINAR ON “WRITING EFFECTIVE RESEARCH PAPERS AND RESEARCH PROPOSALS

” HELD ON 4TH JANUARY, 2020 One day Seminar on „Writing Effective Research Papers and Research Proposals’ were organized at NRI College. The primary aim of organizing this seminar was to familiarize with writing effective research papers in the SCI indexed Journals and to familiarize to write effective research proposals based on the requirements of different funding agencies. The program was aimed to promote research among the faculty members exclusively for the research students who got registered from the year 2017 in all disciplines offered Principal Dr P K Sharma welcomed all the dignitaries and delegates of the one day seminar. The orator emphasized that writing the quality papers helps advancing knowledge and encouraging communication. , Dr P K Sharma proposed the vote of thanks. Session was started with the topic Writing Effective Research Papers for SCI Journals. During the session he explained the method of writing with examples of sample exercises. He also briefed about how to avoid plagiarism during the paper writing process during the session he explained about the importance of funding and challenges in the process of acquiring grants for sponsored research. He also explained about list of funding agencies, selection of funding agency, writing a effective proposal , salient point to remember when write a proposal. The topic was discussed with a sample exercises for the effective grant proposal to various funding schemes including bilateral projects. Faculty members are also participated during the seminar. Both the sessions were very interactive and received well with the participants. Participation certificates were distributed to all the participants.

About NRI Group

India's technological progress in hardware and software is primarily attributing to non resident Indians (NRIs) who have excelled abroad in various aspects of science and technology. After achieving name, fame and success, the selected NRIs have set up this group of institution. The quality of US style education is available now

locally in Bhopal NRI institute of information science and technology, Bhopal (NIIST). NRI institute of pharmacy (NIP), NRI institute of diploma in pharmacy (NIDP) and NRI institute of management studies cater to local students of MP and neighboring states as well as International Students.

The society's vision is to develop this group of institute as the “**Centre of Excellence**” incorporating the best ideas from US and other education institution.

The society is committed to fulfilling and exceeding the AICTE norms. The management team intends to infuse fresh ideas, some of these include work study program. Internship program and others. The end result is improvement in the quality of education.

About Topic

“The core area of the seminar is Intellectual Property Rights in Business. To understand the significance of the components of the IPR and using it effectively as a main part of business strategy is vital to attainment in the market place. Businesses need the IPR to protect production secrets or other useful information and continue forward of the competition. Digital Economy rewards those enterprises that are creative, innovative and understand the importance of the market for ideas. The Intellectual Property Rights provides the formal framework for protecting their knowledge, creativity & innovation. To maximize the potential provided the IPR one has to think beyond exclusive rights to IP assets.”

The seminar was inaugurated by the

Principal Dr.Amita Mahor, Dr Pooran Gour

HOD Department of EC Dr. Kalarani Professor,

Department of Electronics UIT , Bhopal was the resource person and she handled the topic effectively. Final year students were actively participated in the seminar and the resource person clarifies the doubts apart from the students. Dr.Puran Gour welcome the gathering and at the end of the session **Prof.Rajeev Thakur** expresses the vote of thanks.

ONE DAY SEMINAR ON INTELLECTUAL PROPERTY RIGHTS

ORGANISED BY NRIIST A one day seminar titled 'Intellectual Property Rights' was jointly organized on 15th October 2016. The seminar commenced at 10 o'clock. The Principal of the college inaugurated the seminar by lighting the ceremonial lamp and delivered the inaugural address. Intellectual property right (IPR) is the rights granted to the creators of intellectual property and include trademarks, copyrights, patent, industrial design rights and some jurisdictions and trade secrets. Rather than protecting possessions, intellectual property law protects exclusive rights to use or reproduce the intellectual property (IP). Copyrights protect expression while patents protect inventions and neither protects ideas. The technical session started with an excellent and interactive presentation on the "Copyright Systems in India". The orator started by explaining the importance of IPR in the present scenario. The history of copyright, followed by the different types and the dual role played by copyrights were discussed. The talk gave a clear idea about the different rights granted by copyright such as the economic and moral rights, about right of paternity and right of integrity which comes under the moral rights. The topic of infringement of copyright was dealt with in detail. The session also gave an idea about the section 52 of the copyright law. The different tools available for patenting were introduced in this session. The topics such as prerequisite and requirement for patentability were explained. The importance to file patents and the patent filing procedures were stressed in the presentation. The patents classified into IPC (International patent classification), USPC (United States patent classification) and CPC (Cooperative patent classification) by World Intellectual Property organization were mentioned. The different search engines such as Espacenet, USPTO, WIPO's patent scope and Indian patent office were also introduced. The patent searches such as keyword based search, patent classification based search and structural based search were explored. The afternoon session of the seminar was started by explaining the "Patent Filing Facility. The seminar on IPR created great awareness among students, research scholars and faculty of College about the important concepts related to IPR, copyrights and patent issues. The programme included discussions on the importance of IPR and their protection, an overview on copyright systems in India, identification of IP, patenting tools, procedure, etc. The seminar came to an end at 4 pm with the vote of thanks by Dr. P K Sharma .
